

Product Portfolio

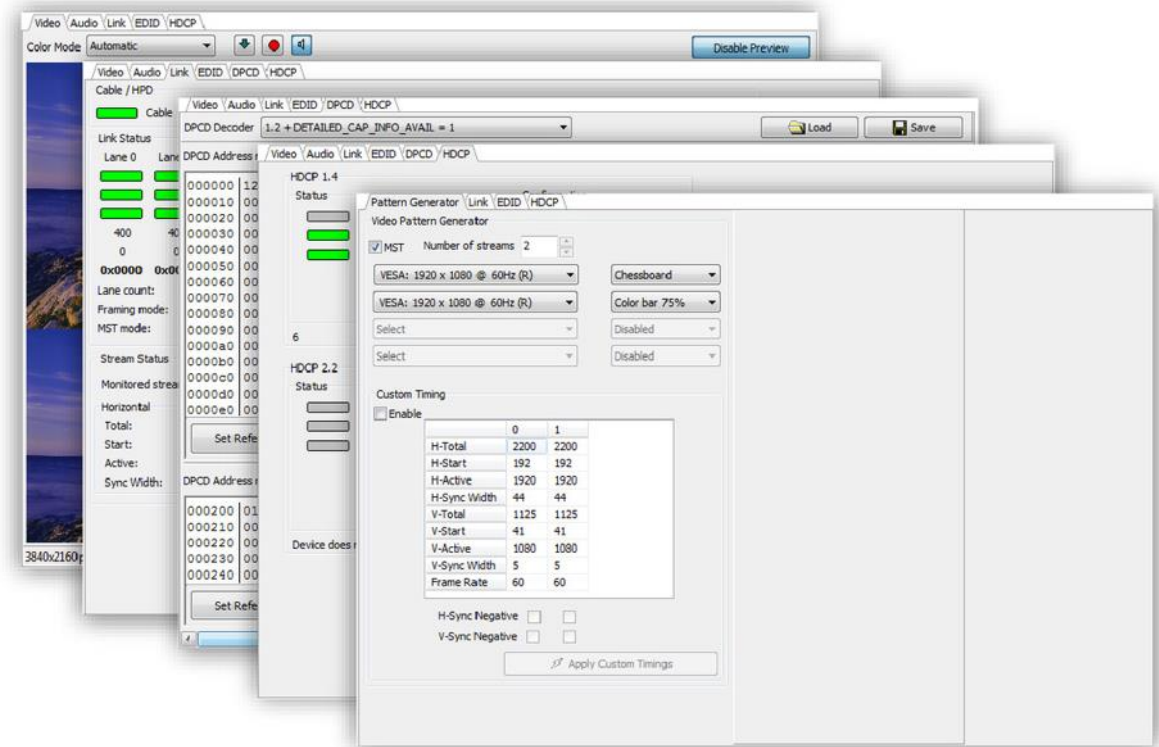

# Unigraf Hardware/Software Offering

- Unigraf PC software is currently supported on Windows.
- New PC software is currently being developed to support Windows, MacOS and Linux
- Test automation scripts are already available for Windows, MacOS and Linux.

# Unigraf PC Software – UCD Console

The UCD Console GUI is Unigraf's PC software that enables users to preview, control and run tests for DisplayPort, USB-C, and HDMI devices that are connected to Unigraf's test equipment devices.

# Test System Interface (TSI)

The Test System Interface (TSI) is a Software Application Interface (API) that users can run from the terminal window to access all the features of Unigraf's test equipment and test automation applications.

- Unigraf's TSI includes ready-made test scripts for testing e.g. video, audio, link, EDID, and power delivery.
- Suitable for an automated test environment in the production line and R&D testing of DisplayPort, USB-C, and HDMI interfaces.

# Typical Use Cases:

## DisplayPort 1.4 8K Video Generator & Analyzer, UCD-400

### Devices Tested:

- Graphics Chipsets
- 8K TVs, Monitors and Transmitters
- Dolby Vision Testing 8K

### Use Cases:

- Official DP compliance testing
- In House CTS Validation
- Driver Regression Testing
- HDCP 2.3 CTS for sinks, sources, and repeaters
- Link Layer 1.4 CTS including DSC
- CTS Test Automation

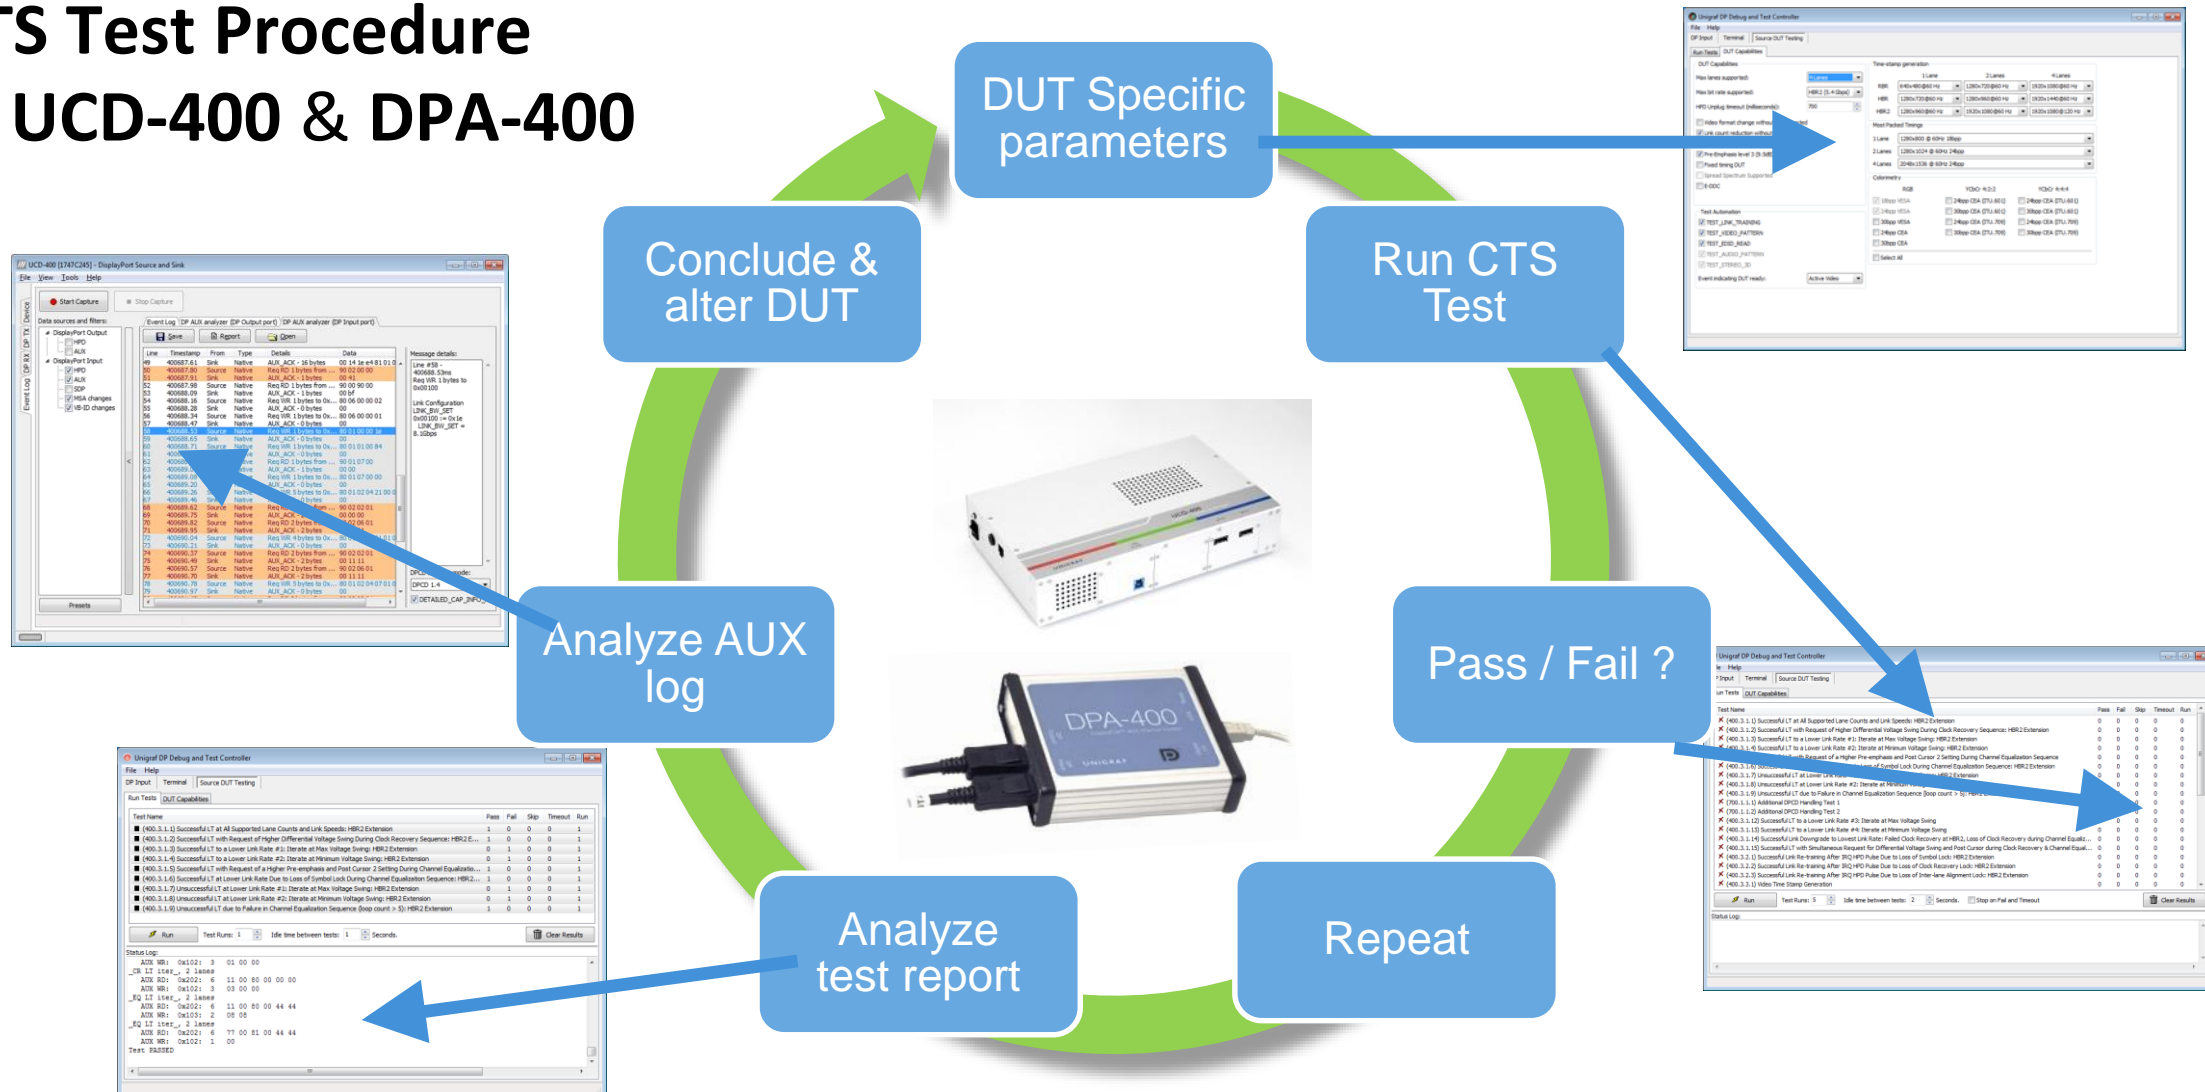

# DisplayPort 1.4 8K Video Generator & Analyzer, UCD-400

- VESA Certified DP 1.4 Link Layer CTS Test Tool
- DCP Approved HDCP 2.3 CTS Tool
- Up to 8K Reference Sink & Source
- DP 1.4 / HBR3 input and output in one unit
- Cable adapter for USB-C devices testing
- MST support (4 streams)
- DSC Sink, FEC and LTTPR support
- HDCP 1.3 and HDCP 2.3 support

## Typical Use Cases:

### HDMI 2.1 8K Video Generator & Analyzer, UCD-422

#### Devices Tested:

- Dolby Vision 8K Testing
- TVs
- Monitors

#### Use Cases:

- HDCP 2.3 Support
- No limitation to custom video output
  - ✓ HDR , HDR 10+
  - ✓ Customers need to have the decoders for analysis

# HDMI 2.1 8K Video Generator and Analyzer, UCD-422

- HDMI 2.1 Test Equipment (FRL)
- Enhanced Gaming Features: VRR, ALLM
- TMDS support
- HDCP 2.3 support
- Dolby Vision Test Tool
- 8K@60 fps support (12 Gbps/channel)
- eARC support (*Estimated Q1/20*)
- DSC support (*Estimated 2020*)

*Video Analyzer Software (Estimated Q1/20)*

## Typical Use Cases:

### USB-C DP Alt Mode 8K Video Generator and Analyzer, UCD-424

- DisplayPort Compliance Testing for USB Type-C Devices
- DP Alt Mode 8K Type-C Devices

# 8K

# USB-C DP Alt Mode 8K Video Generator & Analyzer

## UCD-424

- DP 1.4 Link Layer CTS support
- HDCP 2.3 CTS support
- Up to 8K support for reference sinks, sources & repeaters
- DP 1.4 / HBR3 input and output in one unit
- USB-C v1.3 input and output with Power Deliver
- Power Delivery: Capable to sink & source 9V
- PD Role swaps supported
- MST support (4 streams)
- DSC Sink, FEC and LTTTPR support
- HDCP 1.3 and HDCP 2.3 support

# Typical Use Cases:

## USB-C DP Alt Mode 4K Video Generator and Analyzer, UCD-340

### Devices Tested:

- Tablets
- Laptops
- Mobile Phones
- Chargers
- Type-C Displays
- VR Glasses
- HDMI to USB-C Dongles and Cables

### Use Cases:

- HDCP 2.3 CTS
- Video source and sink
- Power delivery and power load up to 100W
- Cable quality testing

# USB-C DP Alt Mode 4K Video Generator and Analyzer, UCD-340

- Test DP Alt Mode video and audio
- Test USB-C Power Delivery with DP Alt Mode
- USB-C and PD2.0 controls
- Power source and load up to 100W
- **Electrical test for DUT connector pins**
- **Cable flip with SW**
- HDCP 1.3 and HDCP 2.3 support
- USB data pass-thru

# 4K

# USB-C 4K Video Analyzer and Generator for Test Automation, UCD-240

- Automated tests for USB-C DisplayPort Alt Mode
- Electrical Test to verify whole USB-C connector with single cable insert
- Test USB 2.0 and USB 3.0
- 4K@60 support
- Set test parameters with provided software
- Easily run tests from the command line
- Unigraf's Test System Interface (TSI) support
- Third Party Test Management Software Support e.g. NI TestStand Support

## Typical Use Cases:

# USB-C 4K Video Analyzer and Generator for Test Automation, UCD-240

### Devices Tested:

- Mobile Phones
- Laptops
- Tablets
- VR Glasses
- Chargers

### Use Cases:

- Production Test Automation
- Software Release Testing

# Opportunities for USB-C

- PC and Laptop makers: ASUS, Acer, Apple, HP, Lenovo, Dell, VAIO
- Monitor manufacturers: HP, Dell, LG, Samsung
- Mobile phones: HMD (Nokia phones), HTC
- **Cable and converter manufacturers:** BELKIN, ELKA, Luxshare, Moshi
- **VR/AR goggles:** MS Hololens, Varjo (Finland), Google
- **Car Infotainment systems:** Continental, Bosch
- ODM and CEM's: Foxconn, Flextronics and Compal should have many projects

# HDMI & DP 4k Video Analyzer, UCD-301

- Compact, USB 3.0 connected test equipment
- HDMI 2.0 and DP 1.2 compliant
- 4K / UHD @ 60 Hz
- Test video, audio and metadata
- Verify electrical continuity of output signals

## Typical Use Cases:

### HDMI & DP 4K Video Analyzer, UCD-301

#### Devices Tested:

- Game Consoles
- Set Top Boxes
- Blu-ray Players

#### Use Cases:

- Electrical Testing on HDMI
- HDCP 2.3 CTS Testing for Source Devices

# Opportunities for HDMI 2.0

- Set top box makers: Arcadyan, Liteon
- Media Players: Apple TV, Google Chromecast
- Soundbar manufacturers: Tymphany, LG, Samsung
- Cable and converter manufacturers: Barco, Belkin, Luxshare, Moshi
- Game console makers: SONY, MSFT X-box, Nintendo
- Foxconn, Flextronics and Compal should have many projects

arcadyanBARCOMicrosoftFOXCONNLITEONGoogleSONYFLEXTRONICS X

## Typical Use Cases:

# HDMI & DP 4K Video Analyzer and Generator, UCD-323

### Devices Tested:

- Monitors
- TVs
- Dolby Vision 4K
- Game Consoles
- Set Top Boxes
- Blu-ray Players
- Soundbars
- AV Switches
- Converters (DP/HDMI)

### Use Case:

- HDCP 2.3 CTS for Sinks and Sources

# HDMI & DP 4K Video Analyzer and Generator

## UCD-323

- HDMI 2.0 and DP 1.2 input and output in one unit
- UHD / 4K compliant test equipment
- DCP Approved HDCP 2.3 CTS Test Tool
- HDCP 1.3 and HDCP 2.3 support
- Sink and source video, audio and configuration parameters
- Approved Dolby Vision & Dolby Digital Plus compatibility test tool
- Approved Dolby Atmos & Dolby Digital Plus compatibility test tool

4K

## DPA-400 with the AUX Channel Monitor GUI

- Compatible with all DP versions up to 2.0
  - ✓ Device independent
  - ✓ Can be used between any DP Source and Sink
- Time stamped interaction log
- Detect and parse all DPCD locations
- Decode Sideband Channel Communication messages
- Flexible in MST testing
- USB controlled & powered, small and light weight

**AUX Channel Monitor is mandatory tool for any engineer verifying or debugging Compliance Test or Interoperability**

## Companion Tools for DP PHY Test Automation

DPR-100/DPT-200 to be used with:

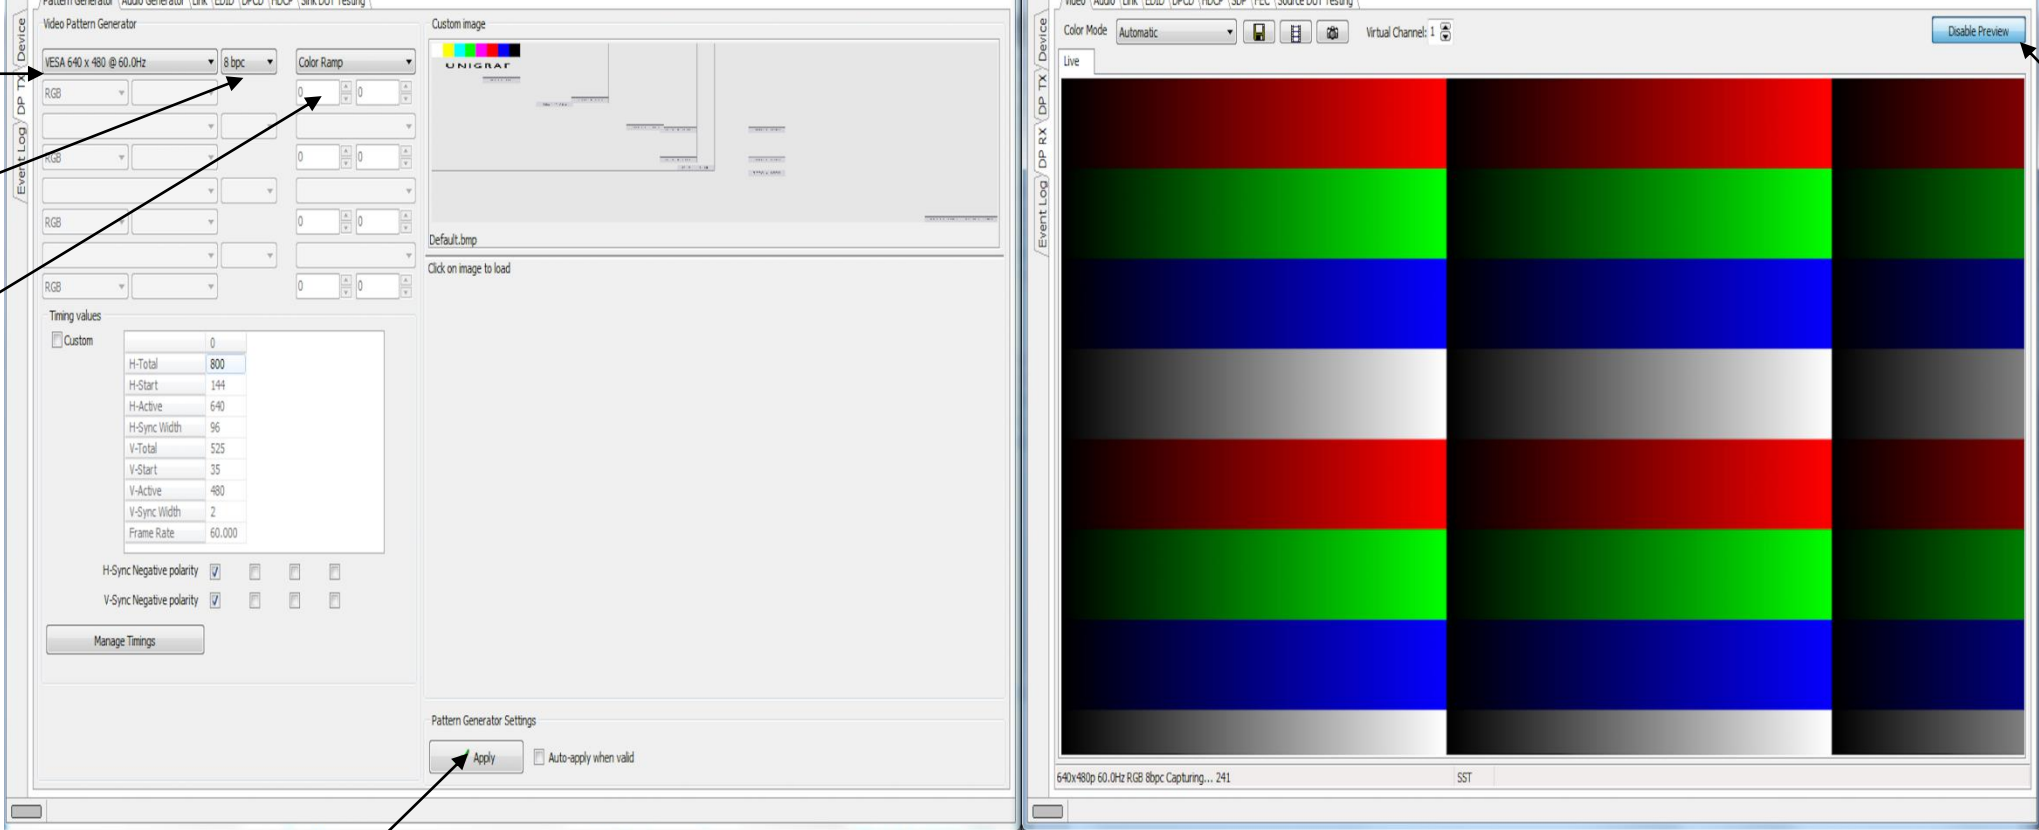

- Keysight DSO90000A, DSAV1604A or DSA 90000 X-Series Infiniium oscilloscopes
- Tektronix oscilloscopes

# Video Pattern Generator – UCD Console GUI

## Transmitter (TX) Side

## Receiving (RX) Side

The screenshot displays the UNIGRAF Video Pattern Generator GUI, split into two main sections: the Transmitter (TX) Side and the Receiving (RX) Side.

**Transmitter (TX) Side:**

- Select Video Timings:** Points to the "Video Pattern Generator" tab and the "MESA 640 x 480 @ 60.0Hz" dropdown menu.
- Select Bits Per Color:** Points to the "8 bpc" dropdown menu.
- Select Pattern:** Points to the "Color Ramp" dropdown menu.
- Timing values:** A table showing video timing parameters:
 

| Parameter    | Value  |
|--------------|--------|
| H-Total      | 800    |
| H-Start      | 144    |
| H-Active     | 640    |
| H-Sync Width | 96     |
| V-Total      | 525    |
| V-Start      | 35     |
| V-Active     | 480    |
| V-Sync Width | 2      |
| Frame Rate   | 60.000 |
- Apply Video Pattern Generator to RX Side:** Points to the "Apply" button in the "Pattern Generator Settings" section.

**Receiving (RX) Side:**

- Enable / Disable Preview of Video Pattern:** Points to the "Disable Preview" button in the top right corner of the RX window.

The RX window displays a live preview of the video pattern, showing a 640x480p 60.0Hz RGB 8bpc Capturing... 241. The pattern consists of horizontal bars of red, green, blue, and black, with a color ramp in the center.
